### About

PrøveRommet is a multi artistic happening that takes place every other Monday during BIT Teatergarasjens season, using different venues from event to event. At PrøveRommet one can experience a variety of artistic expressions such as performance, music, theatre, video art, installations, photo, sound art, dance and literature, among other things. PrøveRommet has existed since 1998, and is a unique concept and an important scene and show room for artists to present their work and for an audience to find out what happens on the underground art scene in Bergen.

BIT Teatergarasjen produces, co-produces and presents international and Norwegian contemporary art, theatre and dance, with specific emphasis on projects that stimulate international co-production and cooperation between different fields of art. BIT was established as a festival in 1983/-84, and became an all-year theatre venue in 1990. BIT is one of the main producers and co-producers of international contemporary theatre and dance in Norway. BIT cooperates with theatres and producers in several European countries.

PrøveRommet and Foundation BIT (Stiftelsen Bergen Internasjonale Teater) are non profit initiatives. PrøveRommet is an independent part of BIT, with an own budget. BIT is amongst others financed through the Ministry of Culture and Bergen Kommune. PrøveRommet is in 2011 financed by The Arts Council Norway (Norsk kulturråd), Bergen Kommune and BIT Teatergarasjen.
